

A GLOBAL EVENT

Primary condition: in some years from now the whole world experiences a global event, e.g. an environmental disaster, a financial collapse, a war. You do not know where to go and what is going to happen. Start imagining and thinking about the way that you will deal with the situation: what are you going to do, are you going to stay in your place or leave? In small groups develop an action plan in detail. Answering these questions might help you with your plan:

Where are you going?

Are you going to leave alone or in a group?

What are you going to take with you and for what reason? What does this object mean to you?

Who is going to help you?

A GLOBAL EVENT

Besides thinking about your own experience and writing your story, try to imagine the role of the wider world, your community, city, country: are there any instruments or mechanisms that can be activated in the forthcoming disaster? Are there infrastructure, groups or institutions that can help? If yes, in which way?

It is possible that your own experiences, eg. from the recent environmental disasters, the pandemic or the knowledge of what is happening in the world will help you to plan your future and your wider circle's future.
